

WILMS Compressor VD 40- SVS

Professional drainage of screeds, cavity floors and flat roofs

Product number: 8000601

Top features

- Robust metal housing
- soundproofed
- Suction and pressure connection
- 38 mm and 50 mm hose systems possible
- Display with consumption values

All special features at a glance

- can be used in conjunction with a separator in the negative pressure process
- quick hose change possible due to quick-lock system (SVS)

Technical details

Volume flow	145 m ³ /h
Overpressure	+190 for max 50 m ² area
Negative pressure	-170 for max 40 m ² area
Power consumption	1,1 kW
Supply voltage	230 / 50 V / Hz
Dimensions (L x W x H)	370 x 400 x 405 mm
Weight	28,5 kg
Noise level (3m)	48 dB(A)

Scope of supply

Additional socket 230 V / 10 A, Ammeter, Operating hours counter, MID electricity consumption meter
